Math Minutes

- Math Centers
- Topic 5: Addition and Subtraction Facts to 20
 - ❖ Lesson 1: Doubles
 - ❖ Lesson 2: Doubles +1
 - ❖ Lesson 3: Double +2
 - ❖ Lesson 4: Two Question Problems
 - ❖ Lesson 5: Making 10 to Add

Schrift & Kalitzky

L.A. Log Reading

We read *Two Best Friends* in our anthology, and worked on making predictions. This story was about what happens when one best friend moves away from the other. Your child should be reading at home each night or listening to someone read. Please make sure to write books on reading logs and turn them in.

Writing

We spent the week writing an expository about a different season this week. The kids wrote webs on Monday writing facts about the season that they chose, such a weather in that season, clothes they wear in that season, activities to do, and characteristics about that season. Students wrote their paragraphs on Thursday. We have been focusing on starting each of our sentences differently.

Reminders

- Please remember to send jackets, hats, and gloves to school. The weather is starting to get colder and the students will need them for recess. If your child wears winter boots to school please make sure your child has gym shoes to change into.
- We will take our addition timed tests every week. Our goal is 20 correct problems in 1 minute. If your child passes the test that they are on they will move on to a hard timed test the next week.
- Our winter party will be on 12/20 in the afternoon. Parents are welcome to attend and help out.

REMEMBER TO READ AT LEAST 20 MINUTES EACH NIGHT!
